Gressler of No. 2708 Broadway swore that on Sept. 21 last Mul-holland got \$3,000 from him and two friends by saying he needed it to pay down on the buildings and their con-tents belonging to the Weldmann Brew-ery, at North First and Berry Streets, Brooklyn, which he had bought for \$10,000. Then, Gressler avers, Mul-holland disappeared until he was ar-rested by Central Office detectives.

General Food Supply Industries and their Employees

You have been accused of putting up the prices of food. While the prices of food products have gone up tremendously, it is because the demand is greater than the supply.

All commodities have risen in price one hundred to three hundred per cent. Take the Bronx alone. In 1900 there were only 200,000 to feed. To-day there are 700,000 people in the Bronx. See how it is growing.

See the increase in demand in this one section. That is why food has gone up. That is why real estate in the Bronx will go up, and why you should buy real estate along the new transit lines.

Seven thousand million dollars will be spent among the people of the United States in the next year, to pay for war supplies.

There is bound to be a large demand for real estate; it must increase like other commodities.

NOW is the psychological time to take your surplus earnings and invest them in real estate, particularly along the new White Plains extension of the Subway.
